

Industrial Park Sanitation District

January 27, 2023

TO: Customers of the Industrial Park Sanitation District

As most of you are aware, The Industrial Park Sanitation District is the wastewater collection/service provider within the boundaries of the Industrial Park. The District has and is currently experiencing a significant increase in illegal discharges into the sewer system, **PRIMARLY SHOP RAGS, DISPOSAL WIPES AND AGAIN MEDICAL NEEDLES**. These illegal discharges are adding significant repair and maintenance costs to the District's lift stations by clogging the pumps and some transmission lines.

The District is working at trying to identify the person (s) responsible and once located the District will assess penalties at a rate of up to \$1000.00 per day per violation. Additional costs and fees may also include clean-up, increased monitoring, inspection and surveillance. We do expect to find the person (s) at fault but would hope that the illegal discharge will stop.

We are asking that all Industrial Park Sanitation District customers immediately review your discharge practices to ensure that you are following the District's Rules and Regulations as well as all local, state, and federal regulations concerning wastewater discharge. This voluntary effort by everyone will help prevent the costly repairs and added maintenance costs within the Industrial Park boundaries and especially to our pump stations and transmission lines.

Please remember that all prohibited waste material must be properly disposed of.

Your cooperation and assistance are greatly appreciated in helping to resolve this issue. If the person (s) that is discharging illegally cannot be identified the add costs for repairs and maintenance will be passed on to all District customers.

Please find attached a copy of items/materials which are illegal to dispose of in the sewer system.

Please contact the District at 303-287-1624 with any questions.

Thank You

Steven Olson/ District Manager
